10/2020 – present

Valsad, Gujarat, India

Give My Certificate,

Student Partner

present

BITS Grievance, *Student Grievance Portal*

<https://github.com/AbhishekDoshi26/BITS-Grievance>

CCRS, *Citizen/Client Complaint Redressal System*

It's a complaint redressal system where the users can lodge their complaint and can track them.

Productly

Productly is an app using which user's can get the country of manufacturing of the product.

ToDo

ToDo is a simple todo app but with a much better UI and can be used without internet.

Flash Chat

Flash Chat is a group chatting app

It is powered by Firebase to store messages.

Users can register themselves and can chat with each other.

<https://github.com/AbhishekDoshi26/flashchat>

CIS

CIS is a Crop Identification System using which a user can upload an image and he/she will get all the relevant information about that crop.

The user can also search for a particular crop using it's local name.

<https://github.com/AbhishekDoshi26/CIS---Crop-Identification-System>

QR Code Generator

QR Code is a small picture that contains certain hidden message/information

It can be used to share your information too

QR Code Generator can be used to create your own QR Code!!

<https://github.com/AbhishekDoshi26/QR-Code-Generator>

Weatherify

Weatherify is a weather detection app!!

App fetches current location and gives current temperature.

Users can also check the weather of any city by searching for that city!!!

<https://github.com/AbhishekDoshi26/weatherify>

Suraksha

An app for Women Safety.

Users when in danger, can press the volume up button to send SOS message to registered contact number and also police.

One addition feature is that, when the user is in unknown location, she can check whether that place is dangerous or safe.
